Subject: Waste at Falcon

Gary:

No payment or word from Lazarus. Big surprise, right? Still owes us over \$100K. Theresa sent him an email three weeks ago asking him to decide what he wants to do with the rolloffs we have out there full of waste. We can't dump it, and we continue to get billed for the rolloff rental without any payment from Lazarus. What do you want us to do next with regard to the waste?

I guess the next step is to have our attorney go after Lazarus/Carroll personally, and Norco/Bergner. I found out the other day while I was with our client, Rabalais I & E Constructors, that Lazarus owes them \$28K from 2010, and another \$787 in recent charges. Somehow, he got one of Rabalais' employees to send a crew to Nixon. Management pulled the crew as soon as they realized it was a Lazarus job. According to the folks at Rabalais, for a while Jon Carroll was paying \$5K a month with his personal credit card on his balance, but then the charges wouldn't clear and he disappeared.

SIGH. This guy is so dirty, it isn't funny. Any suggestions? We sure are tired of paying the rolloff charges without any payment from Lazarus.
thanks
